## EPI Celebrates 25<sup>th</sup> Anniversary

Enhancing our environment by preserving water resources for future generations... That has been the mission of EPI since 1980! 2005 marks the 25<sup>th</sup> year that Environmental Protection, Inc. has been working to protect our precious fresh water resources. EPI is also forging an exciting transition to its next generation.

At Environmental Protection, Inc.

we take our name seriously... and we work hard at what we do! EPI has participated in 25 years of change in the geomembrane industry, always dedicated to protecting our environment. EPI has vigorously lead the way in the development of:

- ~ PVC Quality Control Standards
- ~ NSF, PGI & ASTM Standards
- ~ Wolschon accelerated testing
- ~ PVC Geomembrane Institute
- ~ Thermal welding of PVC
- ~ Air Channel Testing of PVC
- ~ Burst Testing PVC Field Welds

EPI continues to be energetically involved in geosynthetic industry

organizations that promote progress and positive change in our world. We anticipate many more positive changes and innovations in geosynthetics over our next 25 years.

Visit us at booth #325 at Geo-Frontiers in Austin, TX and pick up your EPI 25<sup>th</sup> anniversary clip. EPI will be exhibiting at this conference and then participating in the ASTM D-35 meetings immediately following in Atlanta, GA.

EPI ~ preserving water resources for future generations...
