EPI Launches the Liner Letter

Environmental Protection, Inc. will be publishing an informational newsletter on a regular basis to keep you informed of the developments in PVC geomembranes and the current activities at EPI. Please email us or call us with your comments.

After several years of selling for Caterpillar, Dan Rohe has rejoined EPI as Vice President and is currently managing all of the day-to-day activities at EPI. Dan also oversees sales for the North American market.

Ron Meints has recently joined the EPI team and is responsible for inside sales and customer service. Ron has extensive experience in the construction industry and is a welcome addition to the EPI sales staff. Give him a call.

If you have not received your copy of the new EPI Spec.File CD version 4.0, be sure to visit our website and request your copy. The CD's are mailed free of charge in the US and Canada. Click the CD at the right to order yours.

Fred P. Rohe recently spent 10 days in Colombia and Venezuela training engineers and construction industry executives about the manufacturing, fabrication, and installation of PVC

geomembranes. The half-day presentations were made in Bogotá, Cali, Medellin, and Barranquilla, Colombia, and in Caracas, Venezuela. The meetings were arranged and

hosted by Filmtext, S.A. who calendars and fabricates PVC geomembranes using EPI's

proprietary welding process. Filmtext provides fabricated PVC geomembranes throughout South America.

There are many interactive links in this letter that you can take advantage of to learn more about EPI and PVC geomembranes.

Your comments on this first letter are encouraged and welcome. Please let us know what you think about the Liner Letter and what topics you would like to see in this forum.
